

# Familiar Forest Faces: kangaroos & swamp wallabies

Eastern grey kangaroos and swamp wallabies are the typical macropods of Victorian forests. This talk will outline the contrasting biology of these two widespread and common species, and highlight what is left to learn.

Speaker: **Assoc Prof Graeme Coulson**

**Saturday 30th July 1.30 - 3.30pm**

**Trentham Neighbourhood Centre  
Cnr. Market & High Street Trentham**

Cost: Gold Coin donation
